

UPM IMPACT in SDG8

Decent Work & Economic Growth

EELISA ACITIVITIES AROUND SDG8

2nd CO-CREATION SEMINAR: LOW EMISSION ZONES: CHALLENGES AND OPPORTUNITIES

Description

(English below) Con velocidad arrolladora y tal vez de forma apresurada, las organizaciones se disponen a innovar e implantar sistemas digitales que automatizan tareas y decisiones. En este entorno, nos interesa investigar cómo las organizaciones gobiernan -o desearían gobernar- estos rápidos desarrollos. En este coloquio doctoral, Se presentará brevemente la investigación sobre la perspectiva del ecosistema inversor, a cargo de Jesus Salgado, doctorando de Ingeniería de Organización, seguida de un debate. Lugar y día: Escuela Superior de Ingenieros Industriales (UPM, Madrid) días 30 de mayo a las 13:00. Sala R3. Por favor confirmar asistencia mediante correo electrónico.

With overwhelming speed and perhaps in a hurry, organizations are preparing to innovate and implement digital systems that automate tasks and decisions. In this environment, we are interested in investigating how organizations govern - or would like to govern - these rapid developments. In this doctoral colloquium, the research on the perspective of the investment ecosystem will be briefly presented, by Jesus Salgado, PhD student in Organization Engineering, followed by a debate. Place and day: Escuela Superior de Ingenieros Industriales (UPM, Madrid) May 30 at 1:00 p.m. Room R3. Please confirm attendance through email confirmation.
